Berrowing Money.

Berrowing money upon the instalment pla Berrowing money upon the instalment plan is attended with these advantages: The loan can be repaid in small monthly amounts which include the interest and part of the principal, so that by the expiration of the term it can be all paid without any great inconvenience to the borrower; the rate of interest is generally lower; the expenses of obtaining the money are not so great as in ordinary loans, and if it is borrowed upon good paying property then it often happens that the rents will meet the monthly instalments and in time pay off the debt.

MRS. GORDON says the reason why all the lady editors are Democrats is that the Republicans while bestowing the right of suffrage on the most ignorant class in the world, withheld it from women. The point of order is well taken.

LAST Tuesday evening HENRY ED-GERTON, the great Independent leader, was announced to speak at Dashaway Hall, San Francisco. At the appointed time a large crowd assembled, but HENRY did not put in an appearance, and finally it was made known that the eloquent gentleman had "yielded to one of the gods" and fallen by the wayside. The plain English of it is that EDGERTON was drunk.

The Site of Jonesville.

In its zeal to advance the interests of its employers, the Express iterates and reiterates that there is nothing of a disturbing nature connected with the title to the land on which it is proposed to locate the village of Jonesville, called, for euphony's sake, Santa Monica. It is not the purpose of the HERALD to injure or misrepresent either person or property, and in answer to the positive assertion of Mr. Jones' little organ that these titles are clear, we aver that the fact of the ownership of the Santa Monica ranch being in dispute, has for months been known to the members of the legal fraternity of this city. But it is claimed that the site of Jonesville is on the San Vicenteranch. As no one knows the metes and bounds of the San Vicente ranch, this assertion cannot be subleagues, the first located metes and bounds were destroyed, and it is surmised that some difficulty will be encountered in attempts to relocate them. These are facts relative to the two ranches, as will be testified to by our leading lawyers, or anyone who will inform themselves in the premises. We should be glad to know that these titles and boundaries were free from defect or dispute, but as they are not, we deem it our duty as an honest journalist to place the correct information before the people. If it can be determined that the site of Jonesville is on an odd section, a clear title may be obtained from the Southern Pacific

As the greedy trout, in its haste to devour the tempting morsel which skims along the surface of the water within its range of vision, fails to discover until too late the fatal hook concealed beneath the tuft of feathers arranged in the form of its favorite fly; as the finny denizens of the deep pursue and strike the deceptive spoon, under the impression that it is their natural prey, so it is also with the human species in their reckless chase after sudden wealth. Prone to forget that "all is not gold that glitters," and unheeding the scriptural injunction to "make not haste to grow rich," they strike wildly at every gleaming morsel thrown in their way and only when securely hooked discover the artificial nature of the bait. The variety of flies employed to obtain a rise from the hungry searcher after easily secured millions, is as extensive as those contained in a well assorted trout book. Here we have the stock fly, so enticing in bright sunshiny weather, and which destroys such numbers annually. But there is another which-on account of its neutral tints and the quiet, decorous manner in which it floats into public noticeis far more destructive, being equally as effective in cloudy as fair weather, and which is known as the land-job fly. One of these has recently been cast on the troubled waters of speculation, and already we see schools of eager fish swarming about it, eager to bite, without stopping to discover the to connect by said telegraph lines, all the United States and in said Territohook which will inevitably hold them ries and in Canada with each other; and dry. It is time we awoke to the miles. fact that the days when nuggets of the "yellow god" were found lying about loose on the surface of the ground and the city and county of San Franvast fortunes were acquired in a brief space of time, have departed; but this is corporation is to exist shall be fifty a lesson difficult to master, because years. an unwilling one. Hundreds who would turn away with horror at the mere suggestion of a stock speculation will embrace with open arms the most visionary scheme, provided, only, it has the pretense of real estate as a foundation. The promoters of this foundation. The promoters of this county of San Francisco, in the State anglers, and before casting their line have taken the precaution to thoroughly bait the waters of public opinion with alluring fragments, scattered broadcast by a paid and mercenary vada; William Durling, residing in

take the base tinsel for the precious metal. If only the speculators-those who are never willing to enhance the value of their investments by improving their own possessions or aiding in a system of general improvements, but are ever on the alert to take advantage of the labor of others and turn It to their own advancement-if these alone would be the sufferers, we could quietly look on and enjoy the sport; but there is another class, to whom we would speak a word of warning. There are some who will go into the speculation with the determination of enhancing the value of their property by improving and building up the surrounding country, and it is these we would save. Santa Monica can never, by any possibility, become anything more than a mere sea port to Los Angeles, and perhaps a Summer resort for pleasure-seekers. The character of the country, its exposure to the cold winds from the ocean, precludes its ever being adaptable to the culture of semi-tropical fruits or anything else, unless it be the hardiest of plants. There is no money in this as a speculation, but if you wish a lot upon which to erect a cottage where you can pass pleasantly a month or two of the hottest weather, by all means secure it, when the title is settled: but if you invest with a view of making a paying speculation, you are surely doomed to disappointment and will, doubtless, call to mind our warning when, having bitten, you are firmly hooked and discover the dainty morsel to have been only a skillfully

Another Ordinance Passed.

devised artificial bait.

SOME weeks since in deflance of the ishes of the residents of that portion of the city, and to the injury of many living on the eastern side of town, the Common Council passed an ordinance giving the Spring Street Railroad Company the right to extend their track across the Western Pacific road, and along San Fernando street to a point nearly opposite the new depot. It was shown at the time that the space then unoccupied by tracks was hardly sufficient for the accommodation of travel, and that the extension of the street railroad would almost stantiated. This ranch really consists close the street as a public throughof but one and a half leagues, and its fare. But facts and remonstrances boundaries were once defined; but, in have no effect on our Common Counrder to spread the grant over four cil. The injury contemplated was, Mayor BEAUDRY, who promptly property and some loss of life. vetoed the ordinance, and an attempt to pass it over his head was not successful. But if the Council is remarkable for anything, it is Government mule stubborness, and at their meeting on Thursday evening, the determined ring passed another ordinance giving the street railroad company the privileges asked for in the vetoed document. It is claimed that the requisite eight votes have been secured. and that the ordinance will be passed over the Mayor's veto. If this is so, the people of the eastern part of town, the Indiana Colony, and many others will be compelled to seek some other avenue through which to pass in and out of the city, unless an injunction is obtained and the street or so much of it as yet remains to the people is secured by a decision of the courts. This subserviency of the Council to the Spring Street Railroad Company is as remarkable and unexplainable as the hostility of that body to the San Pedro Street Railroad Corporation. The Company will gain but little by the extension; they will be compelled to cross a steam railroad track, which will be occupied the greater portion of time by trains of cars, compelling them four trips out of five to land and receive their passengers where their track now terminates. Meantime their track will render the now narrow space almost impassable for teams.

SATURDAY, JULY 10, 1875

Democratic Platform.

The Democratic party of California in State Convention assembled, in compliance with urges, re-assert the following principles as the basis of their political action, and pledge the condidates about to be nominated to their hearty support. We declare:

First-That we are opposed to the unconstitutional interference of the Federal Administration in the domestic affairs of the State, by which one portion of the Union is bound with taxation to keep another portion of the Union in a State of bankrupicy and servitude.

Second-That we condemn the Republican party, not only for its con-tempt of constitutional obligations, but for its extravagant partisan and corrupt administration on the Federal Government; for the perversion of the functions of the latter to enrich great corporations at the expense of the public; for the jobbery and frauds which have brought reproach upon Democratic institutions; for the Sanborn and Jayne frauds; for the infamous Washington ring, the back-pay steal, the iniquities of the protective system, the curse of inconvertible paper money, the nepotism of the President; for its disgraceful diplomatic service and unfit appointments; for its attempt to pass an unconstitutional Force bill, which were fortunately frustrated by the determined front of the Democratic minority in both Houses of Congress, and for a catalogue of other enormities which have rendered that organization offensive,

even to the mass of those who were once its supporters.

Third—That now, as in all past periods, we are in favor of a restriction of the Constitution and the exercise of doubtful powers; in favor of limiting the powers of the Legislative bodies; in favor of a tariff for revenue only, and a currency convertable into gold and silver at the will of the holder; against the profligate and wastful system of local improvement, by the Federal Government, and in favor of reducing the expenditures of the State Government, and of the counties and towns, and the salaries of officials which have been largely increased since the election of 1871.

Fourth-That the school system and fund of this State are under the guarantee of the Constitution as inviolable, and we are opposed to any diver-sion of the fund to any purposes ex-cept those ordained by the Constitu-

Fifth -- We assert the traditional policy of the Democratic party in de-claring that it is the right and duty of the Legislature to regulate corporations, whether railway, gas, telegraph, water or otherwise; to limit their charges in the interest of the public, and to compel them to serve all per-sons without discrimination and at reasonable rates, and that when they refuse to do so we recognize the right and declare the intention of making them do so; and we further assert it to be the duty of the Government to preserve the waters of the State for irrigating and other public use, instead of permitting them to be made the means of extortion and monopoly. Sixth-That the Democratic party

has no occasion to make any new departure or declaration opposition to the system of subsidies, when we recall the fact that it is to a Democratic State administration that this State owes its deliverance from this oppressive, unjust and corrupting system. Seventh—That we are in favor of calling a convention of delegates elect-

ed by the people, to amend the Constitution of the State, as the only mode of creating a system of government at once harmonious and efficient, and are, therefore, opposed to the amend-ments to the Constitution which are to be submitted to the vote of the people at the ensuing election. Eight—That the time-honored Dem-

ocratic doctrine of local self-government is sufficient when properly ad-ministered to afford an affective remedy for the evils now caused by Chinese labor and the presence among us of inferior race, detrimental to our moral and physical health; that in the interests of all classes in Californta, es-pecially that of the white working people, we demand such amendment to the Burlingame Treaty as shall reduce it to a mere commercial conven-

Ninth-That we condemn the doctrine whereby the power of the State to prevent the importation to our shores of degraded persons for immor-

al purposes has been denied. Tenth—That we favor the speedy completion of a transcontinental rail-way on the 32d parallel, subject to such limitations by the Federal and State Governments as shall protect the rights of the people.

Eleventh—That we are in favor of

equal taxation, and any departure from this principle, and any system of tax-ation which imposes a double tax upon the same subject is in violation of the spirit of the Constitution and unjust to the best interests of the State.

Twelfth—That all legislation intend-

ed to regulate the social habits and customs of the people, so long as those habits do not interfere with the welfare of society at large, and all legislation of the character known by the general name of Prohibitory Laws, is opposed to the principles of the Demo-cratic party and is calculated to promote a pretense of social morality, rather than a well founded sytem of public order and decency.

Thirteenth—That we invite the hearty co-operation of all persons, whatever may have been their past political relations, to unite with us in carrying out the principles herein enunciated. Tourteenth-That we deem as sub-

versive to the rights of the people and ruinous to the best interests of the State, the policy of permitting the lands of the State to decome a monopoly in the hands of the few, at the expense of the many, and we hereby pledge the Democratic party to the correctness of this great evil.

An inquest was held at Sacramento on Tuesday upon the remains of a young lad named Sevey, killed at the regatta on the Sacramento river on Monday. The shooting was declared accidental, and a young man named May, who had been in custody in connection with the affair, was discharged.

Tuesday morning a man named Phelps, said to be from Illinois, as-sistant at Point Conception Light-house, while fishing fell from the rock and was drowned.

Small-pox is reported prevalent at Rio Vista, one death having already occurred there. A HI WA SE SEE Dr. S. M. Sproul, an old resident of Chico, died on Tuesday.
